

Sage X3

Sage X3

V12 Highlights

Sage

Sage X3

Reasons to Upgrade

Functional Highlights and Benefits of Version 12

Sage X3 provides faster, more intuitive, and tailored solutions than conventional ERP for organizations looking to retain their competitive advantage by increasing their agility and embracing change.

Simplification and Ease of Use

- Enhanced performance and improved readability
- Focused, simple and powerful dashboards and home pages for your role
- New responsive design framework will allow users to work on a variety of different devices regardless of the type or size of the device

Industry Vertical Depth

- Web Scheduling for Manufacturing
- Mobile Automation for Manufacturing and Distribution
- Project Management (PJM) and billing
- Timesheets
- New Product Introduction (NPI)
- License Plate Management

Global Compliance & Finance

- Enhancements in multiple geographies supporting updated and new compliance requirements
- Updates to key day-to-day operations including:
 - Bank statement reconciliation
 - Automated journal creation
 - Revenue recognition
 - Bank Feeds
- Tax Declaration Framework

Cloud Services

- New cloud offerings and services enabling 334 partners to provision and manage Sage X3 as a cloud service with the Sage X3 Provisioning Portal
- Providing best in class Sage X3 architecture for multiple customer sizes

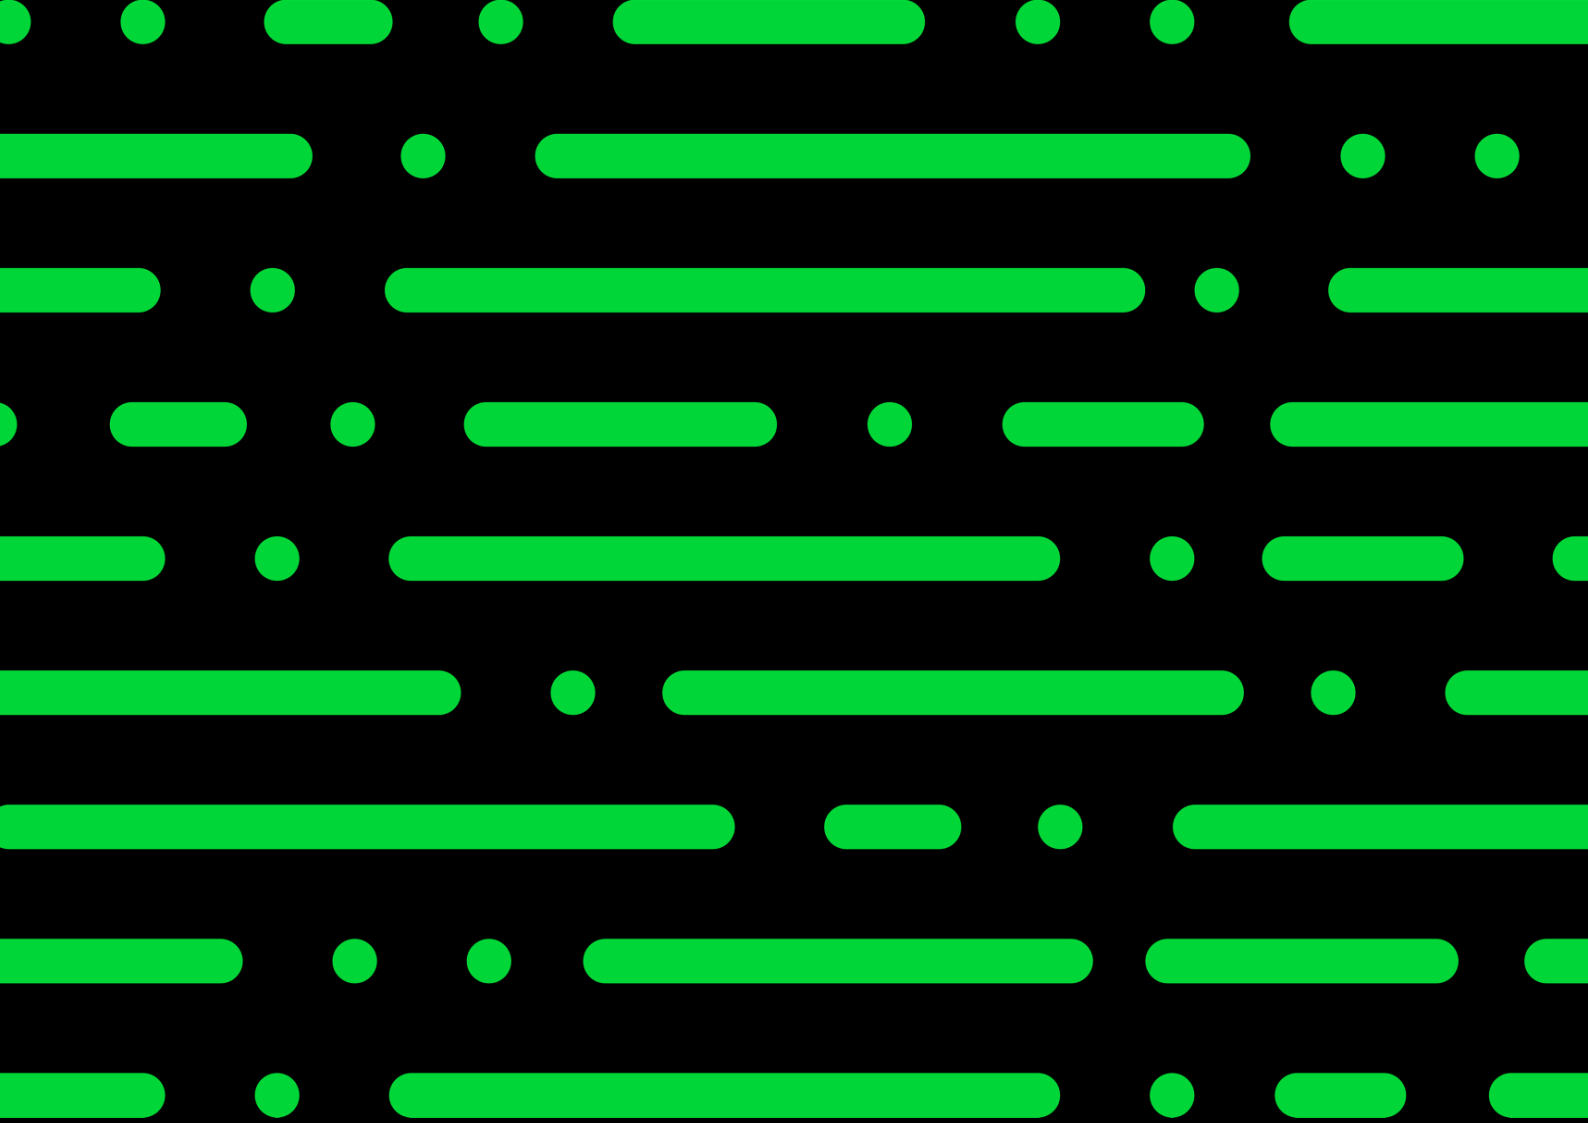

Integrations and Extensibility

- Introduction of new GraphQL API framework and Data Integration API to enable the connected ecosystem with flexibility and ease

Ease of Implementation and Upgrades

- Cumulative patching
- Automated Test Platform (ATP)
